ONEOK, dba Kansas Gas Service Calista Compressor Station (EPA Identification Number KSD 981720923), has requested the Kansas Department of Health and Environment approve an amendment to the facility's post-closure care operating plan. This amendment pertains to post-closure care and groundwater monitoring of the closed surface impoundment at the facility. The surface impoundment is subject to the requirements of the Resource Conservation and Recovery Act. The facility is located .5 mile south of U.S. Highway 54, 6 miles west of Kingman in south central Kansas.

The surface impoundment was operated until closure was initiated in 1989. The original post-closure plan was submitted in 1990. Investigations completed to date include delineation of the dissolved phase and free product at the site, demonstration of hydraulic control and an improved method for extracting free product. The results of these investigations have prompted ONEOK to propose amendments to the post-closure plan.

The proposed amended plan establishes a point of compliance for dissolved-phase contaminants and requires eight wells to be sampled for dissolved-phase contaminants, during each semiannual sampling event. Based on historical sampling results, dissolved contaminants continue to remain under hydraulic control. Control is maintained by groundwater pumping associated with the remediation system. Any changes to the monitoring and remediation efforts in the amended plan must be protective of human health and the environment.

The proposal to amend the plan is based on 40 CFR 265.118(d) in accordance with Kansas Administrative Regulation 28-31-8. Approval of the amendment to the plan must follow 40 CFR 265.118(f), which includes notification through a legal newspaper advertisement and a 30-day public comment period. A copy of the proposed amended plan and accompanying fact sheet is available for public review at the Kingman Carnegie Library, 455 N. Main, Kingman; and at the KDHE, Bureau of Waste Management, 1000 S.W. Jackson, Suite 320, Topeka.

The public comment period begins September 15 and ends October 17. Written comments should be addressed to Mostafa Kamal, KDHE, Bureau of Waste Management, Hazardous Waste Permits Section, 1000 S.W. Jackson, Suite 320, Topeka, 66612-1366. Written comments must be postmarked by October 17 to be considered in the review process.
